

AMENDMENTS TO THE SPECIFICATION:

Please insert the following on page 1, before line 3:

The present Application is a Continuation Application of U.S. Patent Application No. 09/690,455, filed on October 18, 2000.

Please make the following changes at the paragraph beginning at line 25 on page 3 as follows:

In the prior art, since many keys [has] have more than one function[s] allocated, it is difficult to discriminate which action is allocated to which key among a plurality of keys, and thus the operation is difficult to understand. In the prior art, since the contents shown on the display is switched depending on the function in service, it is difficult to display information from a plurality of systems clearly because the state of audio is not known while the car navigator screen is being displayed.

Please revise the paragraph beginning at line 18 of page 12 to read as follows:

The vehicle-mounted apparatus according to this embodiment is a box-shaped apparatus having a controlling section for controlling each unit described above, and a main panel 1 mounted vertically on the front surface 3 of a dashboard facing toward the user is shown in Fig. 1. Fig. 8 is a front view of the main panel 1. As shown in these figures, this embodiment comprises a main display (corresponding to the first display) D1 provided in the main panel 1 and a sub panel 2 mounted on the main panel.

Please make the following changes at the paragraph beginning at line 12 on page 16 as

follows:

In other words, since the journal for upside down rotation J formed integrally with the hinge base HB extends in the sub panel 2, when viewed from the sub panel 2. The journal for the upside down rotation J is provided with a first gear JG integrally formed by resin integral molding. On the other hand[s], the base portion of each button B provided on the operating surface of the sub panel 2 is provided with a second gear BG formed by resin integral molding.

Docket No. C14-163313M/YAH

9

In re continuation patent application of 09/690,455 filed on October 18, 2000

AMENDMENTS TO THE DRAWINGS:

The attached sheet of drawings includes changes to Figure 1. This sheet, which includes Figures 1-2, replaces the original sheet including Figures 1-2.
